

Hi everyone! My name is Summer, and this is my 8th (!! ) year at Summer@Latin and my 3rd summer teaching engineering camp. I attended Latin and graduated in 2019, then went to Carnegie Mellon University in Pittsburgh, where I studied Psychology and Decision Science. The past two years, I've been back in Chicago working as an assistant teacher in 3rd/4th grade at North Shore Country Day while completing my Masters in Teaching Elementary Education at National Louis University. In my free time, I enjoy reading, making crafts, playing board games, and spending time with my family, friends, and dog. I am excited for another educational, fun-filled summer!

I'm excited to work at Summer @ Latin for my 3rd year! I grew up in San Francisco, where I spent a lot of time on the beaches, hiking, or riding. I moved to Chicago in 8th grade, and began at Latin in 9th. I'm happy to call Chicago my home. More than anything, I love animals, especially dogs. On the weekends, you'll find me at the rescue shelter where I volunteer with dogs, bouldering with friends, or just hanging out in my hammock by the lake.
