

Summer, 2024

Dear Moses Brown Camp Family,

We are pleased to inform you that your child is now part of our Marvelous Discoveries camp! We will embark on a scientific adventure asking questions, making discoveries, and sharing fascinating information!

This camp will be the destination for exciting and enjoyable learning in science! Campers in this week-long experience will explore unique hands-on activities that will grow their knowledge in physics, chemistry, astronomy, earth science and biology.

The camp will run from 8:30 a.m. until 3 p.m. Each camper should bring:

- snacks (nut free)
- lunch
- refillable water bottle

Families can enter the campus via the Lloyd Ave gate (D3 on the map) and park in the first lot on the left (P2). Follow the signs to the Moses Brown's main entrance/front circle, and the instructor will meet you outside to check you in. If you have any questions, please feel free to text me at (401) 261-8647 or Roger_Mark@alumni.brown.edu.

Sincerely,
Roger Mark, M.A.T.
Marvelous Discoveries Director
