

Camper Applicant Name: _____

MDA Summer Camp Health Form: CAMPER

IMPORTANT: MDA Summer Camp is a weeklong, residential camp experience for kids aged 8-17 living with neuromuscular disease. Campers can expect to participate in daily adaptive, recreation activities in an outdoor camp environment with support from volunteer camp counselors and the on-site volunteer Medical Team. Applicants must arrange for a physician or licensed practitioner familiar with their neuromuscular disease to complete this form in full and return by the established deadline. The information provided must be based on an examination that took place within 12 months prior to the start of the camp session and must note their medical opinion about the applicant's ability to engage in the program. This information will assist MDA and the volunteer Medical Team with understanding the camper applicant's needs and the resources required to provide support.

Examinations that occurred over 12 months prior to the start of the session, examinations completed by family members, alternate physical exam forms, and forms submitted past the 6-week deadline will not be accepted. Immunization records and a prescribed medication list (including any routine over the counter medications and medically necessary probiotics, vitamins, etc.) are also required components of the camper application; please attach to this form if available. It is also recommended to attach the most recent visit summary. In the event there is a significant change in the camper applicant's health after the form is signed, additional documentation may be requested. Completed forms may be emailed to camp@mdausa.org.

DOB/ Age: _____ / _____ Height: _____ Weight: _____ lbs

Neuromuscular Disease: _____

Other Notable Medical Condition or Diagnosis: _____

PHYSICAL EXAM / REVIEW OF SYSTEMS- Note in detail or 'within normal limits'; attach additional notes as necessary.

Pulse:	Blood Pressure:
