

COVID 19 Pre-arrival testing

The University of Maine is requiring a negative COVID-19 test to be completed 24 hours prior to arrival. This can be completed any time after noon on Saturday prior to your arrival at camp on Sunday. This test can be any form of rapid test including an over the counter test. Please reach out to the office administration team with any question you may have.

To upload your file, first scan a copy of the document and save it as a jpg or pdf file. Under the document center, scroll down to uploads. Select the form and then the person you are uploading the document for, choose your file and then select upload document. You can also bring a copy of the test on your phone to check in to show our health Center staff.

Thank you
