

Five Pines Ministries

6597 Smith Rd
Berrien Center, MI 49102

June 19, 2023

On Friday, in keeping with the theme of creation, we will share with your child the marvelous way God has created each of them. We begin this story of their life as a tiny cell planted within their mother's womb, a safe warm place designed by God especially for babies to grow and develop.

We will only explain their growth and development from that tiny cell to a full-term baby ready to be born. We will not be discussing the intimacy of sexual intercourse, conception, the actual birth process, nor will we discuss the topic of abortion even if questions arise. We believe it is the privilege of every parent to teach their own children and would in no way enter into any of these subjects. This lesson will be taught by a mother and a respected professional in the medical field.

We recognize that this lesson may prompt some questions from your child. Questions of an intimate nature will be directed back to you, the parent. If you would like more details about the content of this lesson, please phone the office. If you feel this material is inappropriate for your child or you would prefer to cover this yourself an alternate activity will be provided for your child.

Please email us your request to remove your child from this lesson or contact us at drop off tomorrow morning. We welcome your questions or comments. Over the years, God has blessed us in this unique and loving approach to our Creator, with close to 100 percent participation.
