PM Activity Sessions

Super Big Event: 3:10 - 5:00 pm

Campers who choose 'Marksmanship' as their primary activity will be learning archery skills and engaging in paintball matches during the AM activity session.

Archery involves shooting arrows at stationary targets, retrieving those arrow, and then trying to improve their aim, stance, and technique.

Paintball involves targeting other campers and trying to 'tag' them out using a marker filled with paintballs that move at high velocity. Your camper may be hit by one of these paintballs during the activity, and a bruise or other mark may be left on their skin. **This mark might cause pain or discomfort to the affected area for several days. 100% of the campers who participate in this activity will receive minor injuries.**

Only PSR Camp equipment is permitted at the paintball range to minimize the risk of serious injury.
