

CREATE ACADEMY

WEEK 2 HIGHLIGHTS

CARDBOARD CREATIONS

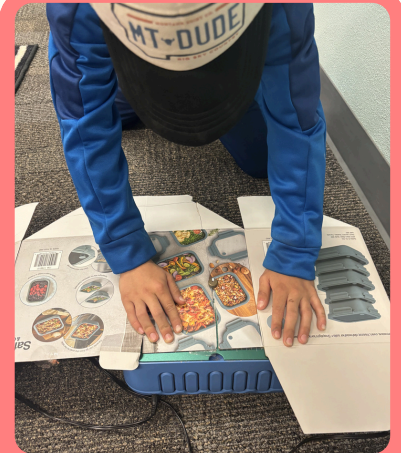

Designing and decorating cardboard houses

Building houses complete with tunnels

Creating marble mazes and testing different designs

Learning how to safely use cardboard construction tools

Enjoying Miso soup with chopsticks

Making Japanese pickled cucumbers and cherry tomato hearts for their bento boxes

JAPANESE CUISINE

Campers enjoyed ramen topped with a marinated egg, bacon, and seaweed

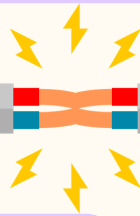

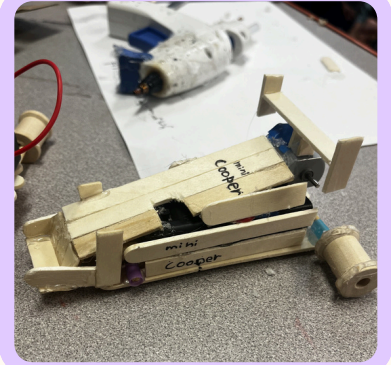

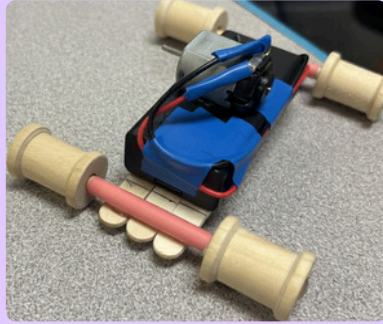

Campers made okonomiyaki, savory pancakes with cabbage, carrots, and bacon

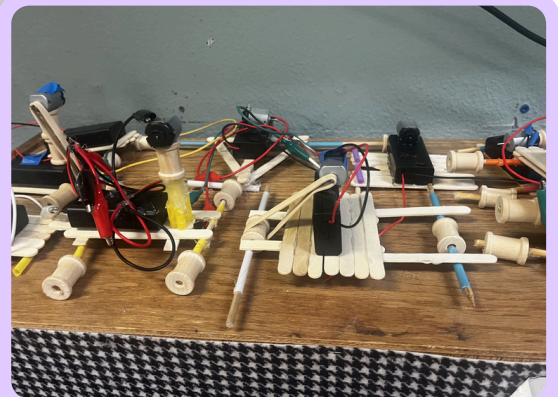

ENGINEERING CHALLENGES

Campers learned how to wire battery packs to power lights and simple circuits

Campers created clay sculptures that lit up using battery-powered circuits

Campers designed and tested rubber-band-powered cars while exploring force and motion

Middle school campers designed and decorated canvas bags and wallets

1st and 2nd campers built imaginative 3D robots using recycled craft materials

CREATIVE ARTS

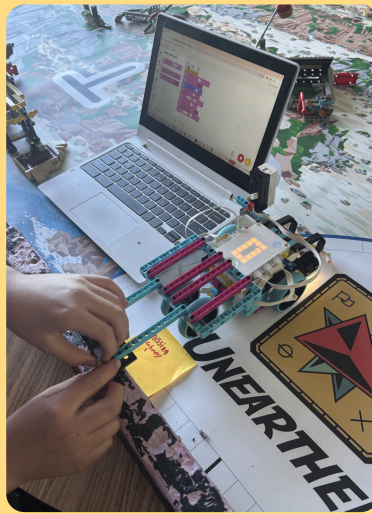

Campers also created watercolor landscape artwork

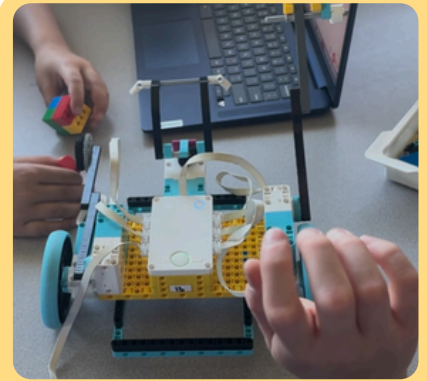

The beginning stages of a LEGO creation early in the week

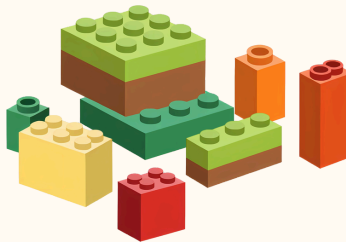

This robot was designed and coded to knock over a switch as part of a challenge

A LEGO Prime robot designed and programmed by campers

LEGO Essentials campers built and customized their cars

Using their coding skills, the Spike Essential campers had battles between their robots

MORE FUN!

A stick and flower campfire to keep warm in the rain

Enjoying a sweet treat!

Even our staff likes to have fun!
