# DAY IN THE LIFE

By Ella  
Meyer

A day in the life would look different for all triple R girls, from classes to evening programs, but this would be the average. They would wake up around 7:15 am and would start getting ready for the day. We go to flag and then breakfast at around 7:30. A camper would then go back to their cabin to complete their Kapers from a range of Hoppers to Bathrooms. At 9:00, 10:00, and 11:00 a camper goes to their 3 different classes. An example of this would be Archery, Baking, then Farm Animal Fun to Challengers, Crafts, and Horshack Riding. There are so many things to chose from! Then comes Lunch! Lunch + Breakfast are both served family-style. We get our mail and head back to the cabin for some rest time. We change into our bathing suits and head down to the Cantina for snacks! We all get to chose from candy, chips, or ice cream and play games! A camper would get to chose between from swimming in the Pool or River. We play in the water then head back to our cabins and get into our dry clothes. At 5, we have our cabin activity. Then we have dinner. At last, we have a all-camp evening program then get ready to start all over again.

By Ella Myon

The decades club is a Rocky River Ranch tradition where anyone that has been coming to the triple R for more than 10 years gets to join. It is so cool to talk to someone who has been coming to RRR for more than 10 years, and luckily I got to interview some of them!

Q: What keeps you coming back to Rocky River Ranch every year?

Taylor: The people + friends!

Ryan: The campers, counselors, and staff!

Q: What is some of the strangest/funniest things someone has told you hear?

Taylor: "If I don't get into Texas State, Harvard is my backup!"

Rui: "Little Rui! Little Rui! Are we having fun yet?"

Calli: "My favorite part of your body is your toes."

Q: What things have changed since you first started?

Rui: A/C has been added to the cabins, and changed sides of the river. They also came here for a month.

Taylor: The bathrooms were remodel.

Q: What is one of the wildest things you've done at camp?

Ryan: We cut out our toes and pinned them on the camp director's house.

# The Gum Tree!

The gum tree started because

When girls came to the grub store they would have gum in their mouths. They would stick gum under the table. and people got tired of scraping the gum. so that is why the gum tree is here. so girls could stick their gum on the tree instead of putting it under the table.
