

Lodging Options

Main Lodge

The Main Lodge has two bunkrooms on either side: Riverside and Ridgeside. Both bunkrooms have half baths with running water and propane powered thermostats. Bunkrooms sleep between 9-11 campers, so we are happy to accommodate larger groups or multiple families in one space. The bunkrooms have direct access to the common living space and kitchen.

Summer Cabins

The summer cabins: Duncan, Folts, Calvert and Witt, offer a slightly more rustic yet cozy camping experience. Each cabin has LED battery powered lighting and a portable propane

heater. Calvert and Witt overlook the St. Vrain river, while Duncan and Folts are nestled in a grove of Aspen trees. Both sets of summer cabins have easy access to the Bathhouse and Main Lodge. These spaces can easily accommodate up to 6 campers. Summer cabins are not equipped with running water or electricity.

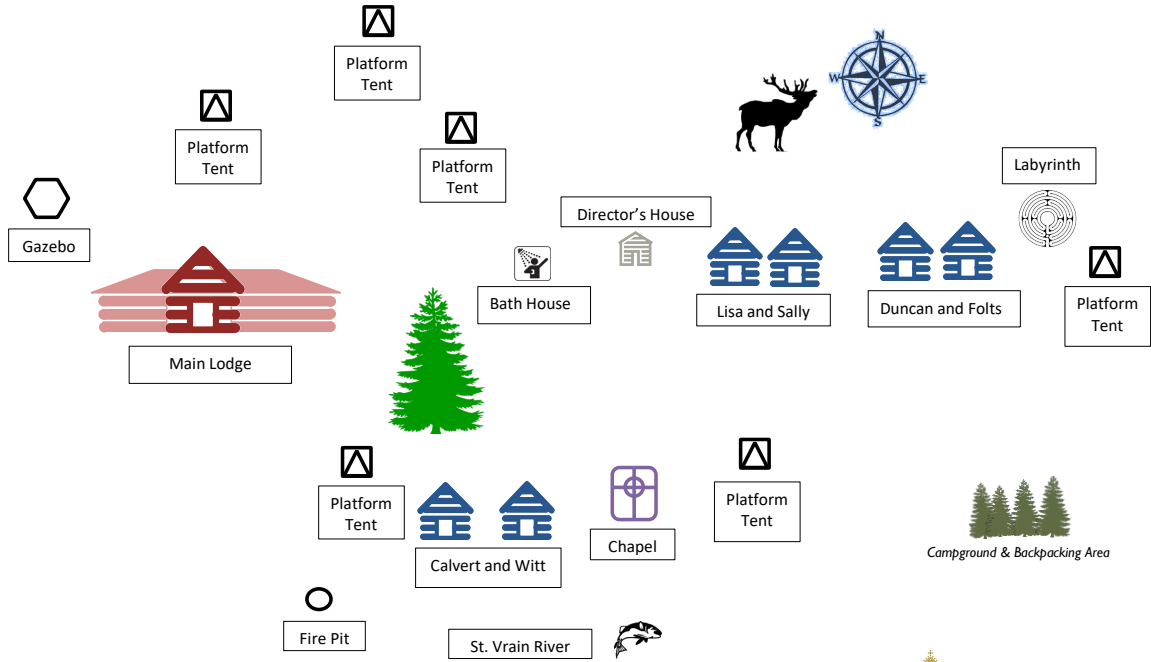

Private Cabins

The private cabins, Lisa and Sally, are both equipped with full baths, electricity and a propane powered thermostat. Private cabins can easily accommodate up to 4 campers. These cabins are typically reserved for our guests with specific needs.

Platform Tents

The ultimate tent experience! Each tent features 2 cots, a portable propane heater and solar powered lanterns. All 6 tents feature easy access to the Main Lodge and Bathhouse. These spaces can accommodate up to 2 campers.
