

## Covid-19 Compliance Pledge – Summer Programs 2021

Camper Name:

In order to successfully mitigate the risk of spreading Covid-19 among our community, everyone must do their part. It is important that each of us – staff, campers, and all household members – adhere to federal, state, and local guidelines for reducing the spread of this virus both on and off-campus.

The health and safety of all of us depends upon the individual commitment in the following areas:

1. Read and adhere to the Charlotte Country Day School Covid-19 policy.
2. Review materials provided to understand proper infection control and protection.
3. Practice the recommended guidelines to help prevent the spread of germs while on campus and off campus.
4. Follow the daily screening procedures adopted by Charlotte Country Day School Summer Programs.
5. Stay home or keep your camper home if symptoms of illness are present, or if there is a known exposure among your household members.

The Covid-19 pandemic and the latest scientific efforts to reduce its impact are subject to change. Our Summer Programs policies and compliance measures may be modified as well.
