

Hello 2020 Campers and Parents/ Guardians,

Just a quick update to let you know we are still waiting for the American Camp Association "Camp Operation Guide Summer 2020".

This Friday we will join a virtual ACA town hall meeting with expert panelists from Environmental Health and Engineering (EH&E).

Participants will learn about the process being utilized to adapt the draft CDC guidance into a practical toolkit camps can utilize for summer 2020... expert panelists will provide insights on how to rapidly foster communication with local and state departments of health on topics such as camps and staff participating from other qualified local and regional areas.

If you received an email from us with upcoming payment reminders, please disregard. Due to the uncertainty of the situation, our preference is to wait and take care of payments closer to session start date. (Honestly, this was an automated email that we completely forgot to turn off. Apologies!)

[The camp oaks are in bloom. Such a beautiful sight! :D](#)

We will be in touch next Wednesday.

Hang in there and stay safe,

Larke- Camp Manager

&

Dennis- Camp Director
