Explore the exciting world of robotics! In this hands-on club, children will develop analytical, problem-solving, and critical thinking skills as we work in teams to design and assemble various robotic creatures. We'll use batteries, motors, sensors, switches, actuators and remote controls to help our robots understand and interact with their environment. We'll build on the same skills developed in the MFS Lower School Coding program to design algorithms that help our robots complete tasks. Students will combine creativity and logic into their problem solving. No previous coding or robotics experience is required.

Teachers: Ryan Kennedy and Kenya Barber – MFS LS parent and MFS Kindergarten Teacher
