MOORESTOWN FRIENDS SCHOOL
SUMMER PROGRAMS

Tot Scholars Course Descriptions

Week 1: June 25 - 29

Coding and Robotics: The Beginning (AM)
Teacher: TBA
Learning another language comes more easily at an early age. The language of computer programming is at play all around us, reshaping our world, and defining the future. The fun will begin with symbols and directives so that children will grasp what steps are taken to program or teach a robot to move, an animation to play, and an application to run. This intuitive week of instruction will be interwoven with plenty of games and parallel play that connects with coding and robotic lessons.

Tot Scholar Afternoon Care (PM)
Teachers: Assistant Teachers
Extending the length of the day for our youngest children, Tot Extended Day offers a low-key environment in the afternoon. Children will eat lunch, nap, and engage in play both inside and out.

Week 2: July 9 - 13

Literature and Building: Exploring Structures in Favorite Stories (AM)
Teacher: Merrie Romea
Using some time tested favorite children's stories as a launching point, Tot Scholars will explore different kinds of buildings and construction. Imagine reading *Humpty Dumpty* and constructing walls out of various materials, or reading *The 3 Little Pigs* and exploring different ways to build a house. The possibilities are endless as children connect with and extrapolate upon their love of stories through the language of building.

Tot Scholar Afternoon Care (PM)
Teachers: Assistant Teachers
Extending the length of the day for our youngest children, Tot Extended Day offers a low-key environment in the afternoon. Children will eat lunch, nap, and engage in play both inside and out.

Week 3: July 16 - 20

Literature and Song (AM)
Teacher: Pauline Williams
Children's books and music often go hand in hand. Come enjoy a week of rich storytelling which blends music and literature. Children will explore the intersection of stories and song, as well as experience the stories through other techniques, such as story-acting and dramatic interpretation.

Tot Scholar Afternoon Care (PM)
Teachers: Assistant Teachers
Extending the length of the day for our youngest children, Tot Extended Day offers a low-key environment in the afternoon. Children will eat lunch, nap, and engage in play both inside and out.

Week 4: July 23 - 27

Artistic Endeavors (AM)
Teacher: Pauline Williams
Young children express themselves through their artwork. Come experience a week of artistic exploration, where children will get to know materials and techniques. Possible experiences may include paint, clay, wire, sewing, and collage as children create beautiful, complex works.

Tot Scholar Afternoon Care (PM)
Teachers: Assistant Teachers
Extending the length of the day for our youngest children, Tot Extended Day offers a low-key environment in the afternoon. Children will eat lunch, nap, and engage in play both inside and out.

Week 5: July 30 - August 3

Catch the Rhythm (AM)
Teacher: TBA
Rhythm is all around us in the world. Our hearts and bodies contain rhythm, as do our minds and our lives. Come experience how rhythm is a part of everything we do. Children will explore the rhythms found in nature and our surroundings. Music will play a role in this class as well.

Tot Scholar Afternoon Care (PM)
Teachers: Assistant Teachers
Extending the length of the day for our youngest children, Tot Extended Day offers a low-key environment in the afternoon. Children will eat lunch, nap, and engage in play both inside and out.

Week 6: August 6 - 10

The Expansive Ocean (AM)
Teacher: TBA
Through storybooks, pictures, art, and more, children will spend the week exploring what lies beneath the waves. From amazing animals to intricate habitats, there is much to learn about in our oceans. This promises to be a course full of wonder and exploration.

Tot Scholar Afternoon Care (PM)
Teachers: Assistant Teachers
