This Week:

This Week's Theme: Blast Off!

Week # 3 Spectacular Scientists

Purple Parrots
Rowan F.

Orange Iguanas
Natalie D.

Blue Barracudas
Aubree M.

Green Monkeys
Nishansh J.

Red Jaguars
Zalik H.

This Week's Highlights:

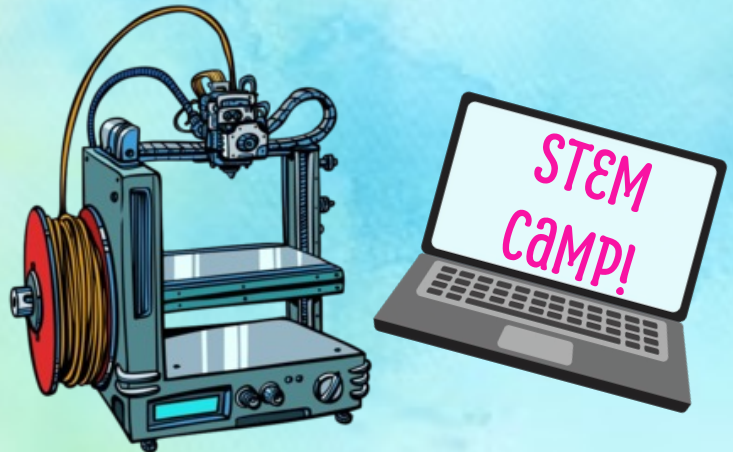

The theme for Week 3 was **Blast Off!** Campers leaped into orbit this week by exploring rocket-powered flight, building and launching rockets from our field, exploring the galaxy, and engaging in challenges to tackle the conundrum of sustaining life in space. "It was definitely rocket science!"

This past week we celebrated four staff birthdays: Happy birthday Zoe, Ashley W., Elliot, and Jane!

Looking Ahead:

The STEM Camp theme for Week 4 is **Get Techy!** Campers will explore the world of technology through 3D printing, basic coding, computational logic, and tech-filled fun. Campers will learn CAD software to design, print, and create their own chocolate mold.

Staff Spotlight:

This week we will meet the staff from the **Blue Barracudas** group!

Kendall writes, "This is my second summer as an instructor at STEM camp! I just graduated with my Masters of Science in Curriculum and Instruction from Concordia University Ann Arbor, and while I am looking forward to every week at camp I am most excited for the geology and paleontology week!"

Makenna ("MK") says, "This is my first summer at STEM camp and I'm most excited about the 2 biology weeks. When I'm not at camp I like to crochet. I am going into my freshman year of college in the fall at Wayne State and majoring in Biological Science :)"
