

STEM Camp Newsletter

Summer 2025

Announcements:

STEM Campers swim every Friday! Please send swim gear on Friday mornings if your camper wants to swim.
Lost something? Ask your camper to check our lost and found or give us a call in the office.

This Week:

This Week's Theme: In our Element

Week # 6 Spectacular Scientists

Purple Parrots
Zoe C.

Orange Iguanas
Ethan H.

Blue Barracudas
Isaac H.

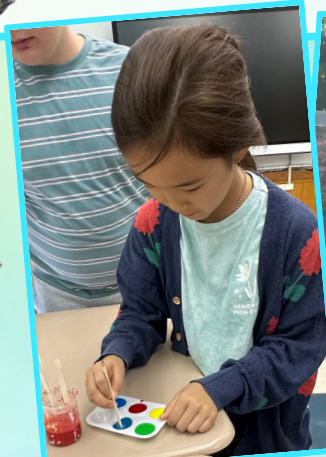

Green Monkeys
Brody T.

Red Jaguars
Leo W.

This Week's Highlights:

The theme for Week 6 was "In Our Element!" Our campers dove into the fascinating world of chemistry. Throughout the week campers conducted exciting experiments, including tie dye, cabbage pH, glowing bouncy balls, fire snakes, lemon volcanoes, bottle rockets, and many more!

Looking Ahead:

The STEM Camp theme for Week 7 is Powerhouse of the Cell. Campers will explore the captivating realms of biology and health sciences! This week, young scientists will delve into the wonders of the human body, the intricacies of ecosystems, and the marvels of cellular life.

Staff Spotlight:

This week we will meet our camp directors and office admin.

Jane, our assistant director, writes, "I love learning! I am proud to say that this will be my fifth year at STEM camp. I really enjoy finding new activities crafts and games for us to try at camp. During the rest of the year, I work for Southfield Public Schools as well as The Henry Ford."

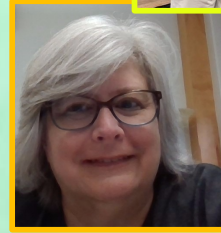

Ashley writes, "I've been the STEM camp director since the camp started in 2018. I hold a bachelor's degree in mathematics from Wayne State University. During the school year I teach calculus at a high school in downtown Detroit. When I'm not at camp or at school, I enjoy painting, reading, and spending time with my cat, Ham."

From **Eric**: "This is my fourth summer in the office at STEM Camp and I always look forward to seeing the new and returning kids and staff. During the school year, I teach at Shrine High School in Royal Oak. I have three kids and enjoy Detroit Tiger baseball."
