

CAMP NEWSLETTER WEEK 1

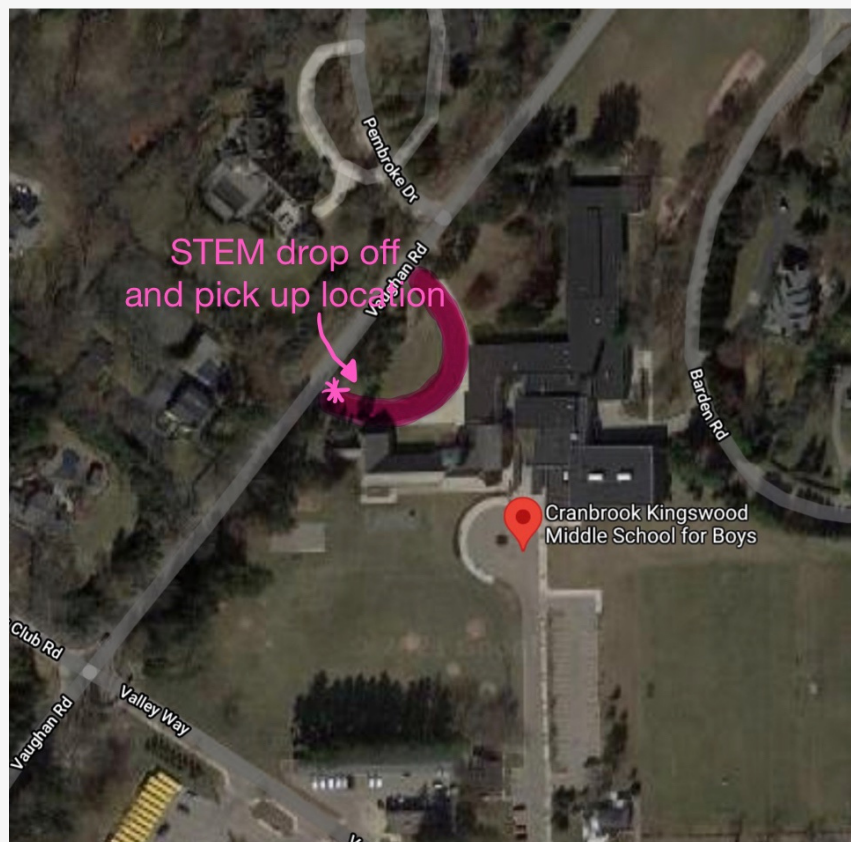

STEM CAMP

WELCOME TO OUR TEAM!

DROP OFF/PICK UP

Campers will need to be dropped off at 9:00 A.M.
Pick up will be at 3:00 P.M.

Please refer to the image for instructions

KINETIC SCULPTURE

This week, campers will explore kinetic sculpture. We cant wait to meet them!

MEET THE STAFF

INSTRUCTORS

I just completed my sophomore year studying Mechanical Engineering at the University of Michigan with a minor in music.

My hobbies include singing and cheering on Michigan's basketball team. I was a counselor for STEM

Camp in 2019 and decided to come back because I love sharing my knowledge and passion for STEM and I especially hope to be able to pass on that same knowledge and passion to every camper.

- **Emma**

I have a wide range of interests including anything from enjoying the outdoors, hiking, camping,

kayaking, playing sports to reading sci-fi literature, drawing, writing and watching shows on

Netflix/Disney Plus. I'm hoping our campers/students have a fun time learning about STEM and make some good memories while here at Cranbrook!

- **Michael**

COUNSELORS

I'm here to teach kids about science and to enjoy camp activities. Outside of STEM, which I'm very interested in, I like to play board and card games. I really want to make sure everyone has a good summer and gets a little bit of work experience!

- **Harry**

I'm a junior at Oakland University studying electrical engineering. Some of my hobbies are playing video games, reading, and fishing. Lately I've also been learning Italian because my grandparents are Italian immigrants.

- **Stefano**

I'm a senior studying mechanical engineering at Michigan State University.

I'm really interested in alternative energy, so I'm looking forward to helping kids learn about energy this week! My hobbies are playing basketball, bowling, and hanging out with friends.

- **Race**

MEET THE STAFF

INSTRUCTORS

I am passionate about education and ridiculously curious. I love sharing my knowledge with others as well as learning new things. My two biggest interests are science and history and; don't get me started on the history of science! I like to flex my creative muscles as well, really looking forward to those kinetic sculptures.

- Jane

Hello! I am a junior majoring in Marine Vertebrate Biology. I have been interested in the sciences my entire life and am excited to educate and have fun with bright young minds. I plan to go for my PhD to have a career in science research, I don't know exactly what I want to research yet but I am incredibly fascinated by bioluminescence and evolutionary biology.

- Desbe

COUNSELORS

I'm here to teach kids about science and to enjoy camp I attend college in Wisconsin at the University of Wisconsin-Parkside. I am working towards a Major in Theatre, minor in History, and a certificate in Creative Writing! I write for fun and love to sew! I can't wait to see the kids learn and develop new interests during the duration of camp!

- Megan

I'm a junior at Wayne State University pursuing a degree in Psychology. A few of my interests include painting, long boarding, gaming, and outdoor activities. I joined the summer camp this year because I wanted to expand my experience as a counselor considering the fact that I began as an aftercare counselor for the ECC. One of the main things I hope the children get out of the summer camp this year is fun.

- James

MEET THE STAFF

DIRECTORS

She is currently a junior in aerospace engineering at UIUC. She has been heavily involved with STEM for the past six years through FIRST robotics as well as volunteering at and running various STEM events for younger students. Outside of STEM she enjoys archery, drawing, and spending time with her cat.
- **Chloe (Assistant Director)**

This is my second summer as the director of the STEM camp. I took a break in 2019, but I am very excited to be back! I have led several STEM programs in the metro Detroit area since 2015, and currently am a high school math teacher during the school year. I'm excited to have your campers with us this summer, we've got some new and improved modules to offer this year. It's going to be a great summer!
- **Ashley L (Director)**

COUNSELORS

My interests and hobbies are volleyball, math, reading, art and cooking. In school I excel in all my math and science classes and I love going out of my comfort zone to try new things! I'm at this camp because I want to be able to build new relationships and connections with the students as well as learn new things about the STEM program to enrich myself!
- **London**

OFFICE ADMIN

I'm a Senior at MSU! I'm a fashion design major and I enjoy drawing in my spare time. I'm really excited to help out with the camp this summer!
- **Jamia**
