Please have campers who would like to swim bring their things with them. **STEM Camp swims Monday and Friday.**

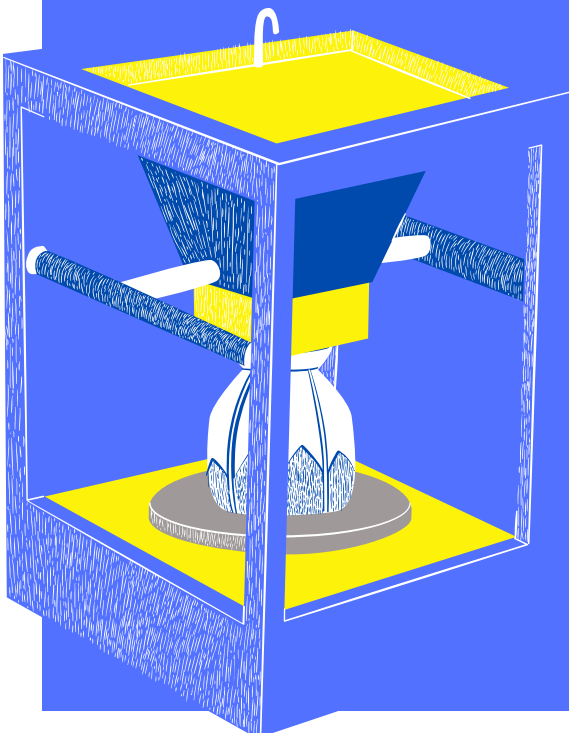

Please include a towel with your campers swim gear

STEM CAMP

WEEK 5

Be an Energy Engineer Grades 3-5

Campers start this very hands-on week exploring the energy within the world around them, and, using their own creativity, find unique ways to use this energy. Then, armed with their new knowledge, campers team up to brainstorm and present ways to solve an energy crisis within the community.

3D Printing Advanced Grades 6-8

Campers dive deeper into the world of 3D printing with new design strategies and more challenging projects. 3D printing experience suggested.

LOOKING AHEAD: WEEK 6

Rocketry (Grades 3-8)

“It’s definitely rocket science!” This week, campers build their own rockets from kits, explore the science behind rocket powered flight, and use CAD software to design and build a rocket from scratch.
