

Thank you for selecting FaySummer Camp for your camper. To complete your camper registration, you must submit a copy of your child's physical exam form and immunization records. FaySummer requires each camper to have a current physical examination and immunization history provided by a physician within 13 months of attending camp. You can upload your scanned documents here - **PLEASE DO NOT UPLOAD PHOTOS OF YOUR DOCUMENTS.**

Please contact the Camp Office:

- If your camper has special conditions, needs, or limitations. You must speak with the Camp Director to determine whether your camper can be accommodated at camp before the camper is accepted into the program. Nondisclosure may result in dismissal without refund.
- If your camper does not have health and/or accident insurance.
- If your family's religious beliefs do not permit physical exams and/or immunizations.

Please note a new set of Camp Health Forms must be completed for each camper prior to each camp season. FaySummer does not keep camper health records from previous seasons.
