

Fellow Science Researcher,

Your big brain has been requested for the Week of July 7-12 at the "Super Science Laboratory" of Rock River Christian Camp. Our lead research scientists, under the direction of Dr. I. Riley Askalot and Dr. Ann Sires, will lead you in *dissecting* what it means to BE a Christian. We look forward to your attendance at our *Time Travel 80's Glow in the Dark Dance Party, Science Exploration Stations, and AMP Your Atoms*. We are excited for you to research Colossians 3:12-15 and discover what it means to be "oBEdient."

There are some specific things you need to know about this positively elemental science week of camp. Once at camp you will not need money for anything, all of the food, snacks, and activities are included in the cost of camp. However, the camp shop will be open if you are bringing spending money. Mail Call is a long time summer camp tradition and Embark camp is no different. At Embark if you get mail you are asked to participate in a variety of fun actions including; hula dancing, singing a song, telling a joke, or even riding a broom around the room. The activity you are asked to do depends on the size or amount of mail you get. *(Please be aware of these traditions and your child's comfort level as you send mail to camp.)*

For our *Time Travel 80's Glow in the Dark Dance Party*, we encourage 80's costume participation *(but it is not mandatory)*. Campers will be given time to change into their costume before the festivities begin. We also provide glow bracelets and necklaces for all of the campers, along with a special gift this year, so that everyone is involved in the fun. July at camp can be very warm, please feel free to bring a fan for your cabin, each cabin is equipped with electricity.

If you have any questions please feel free to email us at abrown14@yahoo.com or flamb8911@gmail.com.

We look forward to seeing you at camp!

Drs. I. Riley Askalot & Ann Sires
